- GA4 / GTM / Search Console

Languages

- English
- Tagalog

About Me

Senior WordPress & WooCommerce Developer with 9 years of web development experience building, customizing and optimizing e-commerce platforms. Hands-on across custom themes/plugins, WooCommerce product and checkout flows, API integrations, PHP/JavaScript/AJAX, performance engineering, technical SEO, analytics, hosting, DNS/CDN, security-minded configuration and production troubleshooting.

Work Experience

Web / WordPress Developer

2019 - Present

Same Day Printing AU

- Build, maintain and optimize the production WordPress + WooCommerce platform, including child-theme architecture, WooCommerce template overrides, custom PHP/JavaScript/AJAX functionality and responsive product interfaces.
- Develop complex WooCommerce product flows with hooks, filters, product metadata, conditional options, quoting logic, custom calculators, validation, variation behavior and conversion-focused UX.
- Integrate PrintIQ and other third-party services through API/hook workflows, remote widgets, cookies and OTP/SSO-style authentication flows.
- Own performance work across Cloudflare Enterprise, Cloudways, Varnish, Redis Object Cache, WP Rocket and ShortPixel AI while protecting dynamic WooCommerce/cart/checkout behavior.
- Manage technical SEO, schema/structured data, robots.txt, XML sitemaps, redirects, SearchWP SKU search, indexability controls, GA4/GTM, Microsoft Clarity and Search Console troubleshooting.
- Manage DNS, SSL, subdomains, staging/production environments, migrations and production issue resolution using Linux/SSH and managed cloud hosting.

Chief Webmaster

2018 - 2019

Artsteel Wrought Iron Works

- Developed and maintained the company website while supporting digital campaigns, product presentation, lead generation and online brand visibility.

Jr. Web Developer

2017 - 2018

Sonimetrix Inc.

- Contributed to a mobile ordering system, managed internal Linux servers and supported front-end/UI and graphic design requirements.

Education

Nueva Ecija University of Science and Technology 2013 - 2017

Bachelor of Science in Information Technology - Major in Web Application Programming

Araullo University

2005 - 2009

Secondary Education

Professional focus: WordPress architecture • WooCommerce customization • API integrations • e-commerce UX • performance/caching • security-minded configuration • staging/production operations • analytics/tracking • technical SEO.
